Skills and Tools

Swift, UIKit, Auto Layout, SwiftUI, Core Data, modern concurrency, networking, unit & ui tests (XCTest), application architecture patterns (SOLID, MVVM, etc), REST API, git & gitflow, Xcode, agile development.

Professional Development

Personal project *(October 2023 - February 2024)*

Trabits is the habit tracker application available on the App Store and on GitHub. The application contains a personalised habit list with day targets and week goals, grouping by categories, detailed weekly and monthly statistics, and supports dark mode and decent level of accessibility.
Tech stack: Swift, UIKit, SwiftUI, Core Data.

Bootcamp *(February 2023 - May 2023)*

I graduated with honours from Kodeco iOS Accelerator Bootcamp. While studying I implemented a prototype of an online shopping application Shopellio that includes collections of products fetched from an external API and editable shopping cart.
Tech stack: Swift, SwiftUI, Networking, XCTest.

Experience

BostonGene, Junior Frontend Developer *(March 2019 - October 2020)*

BostonGene is a healthcare platform providing personalised analytics on suitable treatments. I worked on a project containing an extended laboratory report with multiple charts and tables.
My achievements and responsibilities:
- Participated in creation of a backend-for-frontend proxy server on node.js and express.js;
- Moved large part of the codebase to TypeScript;
- Enriched and supported WebComponent library;
- Wrote unit tests using jest and enzyme for React components and charts on D3.js;
- Reduced Webpack bundling time by removing excess files and folders generation;
- Specified task requirements with scientists and analysts, created dependent tasks, and estimated completion time;
- Provided code reviews.

Tech stack: React, TypeScript, Redux, D3.js, Stencil, jest, enzyme.

Pyrus, Junior Developer *(May 2017 - October 2017)*

Pyrus provides project management software. I worked on a new module for filling forms based on dynamically generated schemas with nested groups, tables, and catalogues.
Tech stack: Objective-C, UIKit.

Education

Moscow State University of Economics, Statistics and Informatics (MESI)
(September 2010 - June 2015; Moscow, Russia)
Grade: Specialist (equivalent to the Master's degree) in Computer Science.

Right to work

I'm based in London. I have the right to work in the UK and do not require visa sponsorship.
